

ERBALE

Becchelli, Bortolani, Maffei,

Erbale is definitely one of the longest lasting projects in driadestore catalog. Designed in 1995, it was actually the “invention of a typology”, as nobody had never thought before to a “screen-tent” constructed with plastic bags to contain plants and water. Erbale has also become one of the symbol of the rising italian designers’ new generation.

Pvc plant holder equipped with 4 plants and 4 water bags.
