

THE WHITE SNOW BESTIARIO DELLA TAVOLA - SERVING PLATE

Antonia Astori, Giuseppe Ragazzini,

The new collection Bestiario della tavola is born from the passion of the artist Giuseppe Ragazzini for pictorial metamorphosis. Painter, set designer and visual artist, Ragazzini used the purity of porcelain from The White Snow collection and created a modular bestiary, based on the principle of metamorphosis and randomness that characterize his works and his animated collages. A game of mechanisms and multiple joints, on a new extraordinary support such as the plate, an eternal object with a perfect shape that can be used as the fundamental component of a "physical" gear.

Serving plate in white porcelain with various colors decorations Ø 32cm, H. 2,4 cm.
