

EASEL

Ludovica e Roberto Palomba,

A minimal top, in crystal, canaletto walnut veneer or marble, suspended on two independent wood structures: the result is a very refined table, thanks to the elegant details and the lightweight look of the piece overall. Easel, designed for Driade by Ludovica and Roberto Palomba, is a table that plays on proportions and dynamism. Available in three different lengths (220, 240 and 270 cm), with a structure in canaletto walnut or solid ebonized ash wood, this table is perfect for any room, from classic to contemporary styles. This elegant piece of furniture has a transparent, airy look. "We learnt the word easel in South Africa, a country that we love and from which we have taken inspiration for our projects. This element has always fascinated us for its dual nature. Each Easel is a bit like each of us, it needs another to be really useful." Ludovica and Roberto Palomba

Base in solid Canaletto walnut and top in white Carrara marble.
