

LA FRANCESA

Lievore Altherr Molina,

"In the eclectic identity of Driade, I have always perceived a hint of french culture, just as I have always been fascinated by the interiors of parisian homes for their expert combination of furnishings and classical items, along with vintage pieces and contemporary objects." Alberto Lievore La Francesa issues from this imaginative background, a refined seat that easily blends into any setting. The legs made of ebonised european ash or natural ash support the high comfort cozy body.

Legs in ebonized or natural solid ash wood, Baydur polyurethane seat. Inside padding in flexible polyurethane. Fixed leather or fabric cover. It is possible to supply the inside and the outside part in two different categories of fabrics; the total price should be considered the one in the higher category between the chosen ones. Indoor use only.
