

MEDITERRANEO - BOWL

Laudani & Romanelli,

With irregular shapes, like stones polished by the seawater; black as the volcanic lava... these are the plates and complements designed by Laudani & Romanelli.

Marta Laudani and Marco Romanelli, architects, have been collaborating since 1988 in the associated studios of Rome and Milan. Operating in the fields of interior design and architecture. In 2001, in Rome, on behalf of Fiat-Engineering, they planned the recovery of the "Museum of Roman Civilization". For both of them, the design work has always been accompanied by intense critical reflection on the themes of living and design: Marta Laudani taught at the Faculty of Architecture of Sapienza in Rome; Marco Romanelli was editor of the Domus and Abitare magazines.
