

ORDINI

Analogia Project,

Ordini is a playful and surprising interpretation of classical architectural orders. The workmanship of the vases recalls the mouldings of vitruvian orders in which decorative architectural features become an ornamental element that plays with the cylindrical volume of the vase. The collection includes three elements, namely a broad vase, a narrow vase, and a table centre cup. They feature different decorations with a white and grey chiaroscuro (light-dark) motif or with solid colours (matt white and cobalt blue) enhanced by the warm touch of precious bronze colour mouldings.

Ceramic vase cobalt blue e bronze color.
