

LOVE MEDIUM

Fabio Novembre,

With its characterizing and intriguing shape, the LOVE cabinet is an expressive bill, a two-dimensional poster that speaks of love. The union between aesthetics and function makes the lines three-dimensional, extrudes the sheet that becomes a container and pulls letters out of the sheet generating handles, versatile elements, available in various colors. «Love is choosing oneself in a closed box, wrapped in an aura of mystery. Love is a faithful guardian of shared dreams, a container of possibilities» Fabio Novembre

LOVE is a cabinet with two side hinged doors, with a moveable internal shelf, and with two central full-extension drawers. Structure made of MDF laquered both externally and internally. LOVE lettering in relief as a handle made of lacquered MDF, easily replaceable, thus personalising the storage unit. Adjustable cylindrical feet diameter 1,37" and height 3,94" in the same colour as the structure. Indoor use only.
