

ROLY POLY GREEN COLLECTION

Faye Toogood,

Driade launches Black is the new Green, a capsule collection composed of iconic chairs and armchairs entirely made of recycled plastic material.

This collection is made of material which comes from industrial recycling, partly from internal production waste, and therefore controlled, and partly from post-consumer recycling, i.e. from products disposed of with separate collection - such as PET bottles - and recycled thus giving life to new objects. All products made with this material are characterised by neutral colours - such as black specifically - which makes them homogeneous.

Monobloc armchair made recycled plastic materia by rotational molding for both outdoor and indoor use. It is available with seat / back cushions made of inside part in polyester fiber interior and a non-removable fabric cover.

Additional Information

Material	Recycled Polyethylene
