

ADELAIDE - TEA SET

Xie Dong,

A table set in white Bone China porcelain designed by the artist and designer Xie Dong who has revisited, in a poetic way, the workmanship of traditional Chinese ceramics. The porcelain is processed to obtain a very thin thickness: extremely fine, resembling a sheet of paper. Complex technical processes allow the porcelain to take on magical and changing forms: it folds, rolls, sways, creases, curves, turns ... The glossy, pure white surface plays with the effects of movement and reacts to light as a living form. Each piece in this collection is unique and authentic, produced by hand and signed by the artist who wanted to translate into poetry what is a profound craftsmanship.

Tea set in white bone china porcelain for two people, handcrafted and with artist's signature. The package is composed by: two tea glasses (Ø 8 cm, H. 6 cm) and two tea glass saucers (W. 13,9 cm, D. 13,5 cm).
