

ERCOLE E AFRODITE COMP.9

DriadeLab,

Driade presents the first project designed by Driade Lab, the company's research centre and creative core. Ercole e Afrodite are storage units featuring anthropomorphic lines with a powerful visual impact. It can be matt white or glossy black. With its unexpected combination of decorative art and historic language, Driade Lab has designed a low relief with classic sculpted shapes that becomes a precious furnishing item in an eclectic and sophisticated setting. The containers rest on a wooden platform, available in two sizes, and are placed vertically and horizontally; each of them is embellished with a low relief showing fragments of the human body, with an evident nod to the clear-cut lines of classical statues.

Modular combinable box system in wooden strips, matte lacquering in white. Modules with hinged doors. Front made of high density polyurethane, matte lacquering in white.
