

TOTEM SHELF

Big-Bjarke Ingels Group,

Breaking the scenes as icon, it expresses a multi-functionality that is both irreverent and tangible. Totem Shelf is a freestanding bookcase consisting of a series of stacked volumes. Each volume is split diagonally into quarters, creating small frames or dioramas for personal belongings. A magical and open place to collect your daily habits and daily passions.

Freestanding display unit/bookcase with a revolving floor system for convenient access to the shelves arranged on the four sides of the display unit. The display unit is composed of horizontal and vertical elements in solid ribbed/half-flame oak made by joining thin 10 mm thick staves with a soft rounded edge.
