

PORTABLE ATELIER

Philippe Nigro

Philippe Nigro designed a desk with a light aesthetic, featuring a birch plywood top with an oak finish that opens with a flap, resting on a matte black painted steel sheet frame with oak details. Thanks to its compact size and elegant, linear design, this desk is perfect for a variety of spaces, from a study to a console table in a living room or bedroom. An accessory kit consisting of a side panel, front panel, and sliding element for paper allows you to customize the desk and enhances the image of a cozy, personal space.
