

ELISA

Enzo Mari

synthesis of lightness and comfort, with a minimalist and elegant design. Designed by Enzo Mari for Driade, Elisa is a collection of sofas and armchairs with a slender frame, contrasting with the soft volume of the cushions. Extremely comfortable thanks to the generous, ample shapes of the polyurethane foam cushions, the Elisa sofa and armchair are characterized by the essential design of the base, a slender steel frame with sled legs that lends the overall effect an elegant and lightweight feel. These splendid furnishing accessories, thanks to their simple lines, exude a refined and sophisticated feel. The sofa is available in two- and three-seater versions, with upholstery in a wide range of colors. Available for indoor and outdoor use.
